CANCELLATION OF CLAIMS

** The pervious cancellations of claims 2 and 12 has previously been made of record.

Appeal Brief

With respect to the interview dated 4-3-07, the terminal disclaimer dated 4-3-07, the amendment to claims dated 4-3-07 and the examiner's amendment addressed herein, the issues within the appeal brief are considered moot and the claims listed on PTO-37 are allowed.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312.

To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for the amendment was granted by Mr. Trop in an interview dated 4-20-07

2. The application has been amended as follows:

- Cancel claims 8 and 15.
- Amend claim 1, last line, by replacing the period with a semi-colon and inserting the following:

—said socket includes a body including an upwardly extending protrusion, said protrusion having a height less than the height of a solder ball for a ball grid array package. --.

Art Unit: 2833

- Amend claim 11, last line, by replacing the period with a semi-colon and inserting the following:

—said socket includes a body including an upwardly extending protrusion, said protrusion having a height less than the height of a solder ball for a ball grid array package. --.
- Amend claim 16, line 1; delete the numeral “15” and insert the numeral –11--.

Reasons for Allowance

- The following is an examiner's statement of reasons for allowance:
- The prior art does not show the socket includes a body including an upwardly extending protrusion and the protrusion having a height less than the height of a solder ball for a ball grid array package in combination with all the other elements of the claim and the examiner knows of no permissible motivation (e.g. improper hindsight) to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Interview Summary

During the interview dated 4-3-07, the examiner discussed the rationale for applicant to provide a terminal disclaimer to avoid a double patenting rejection. During the interview dated 4-20-07, the examiner requested authorization to amend the claims to make them unobvious over Adachi et al. (6981881) and the other art of record.
